

PLEASE do not allow LPFM stations to take precedence over FM translator stations like KLOVE. Many thousands of listeners would lose their quality, family oriented stations and we would lose the music and the news that supports our values and our faith. KLOVE plays an extremely positive role in the community and nationwide and could potentially lose many stations. KLOVE is what got me through driving to and from all my cancer treatments and is a constant source of enjoyment and upliftment for me throughout the day. And my kids can listen to the radio with no worries of inappropriate news stories or lyrics. DO NOT DO ANYTHING TO HARM THEIR STATIONS!!!
